

LAND ROVER CONNECTED SERVICES

ABOVE & BEYOND

INTRODUCING INCONTROL

Get the most from your Land Rover.

InControl is a suite of intuitive and innovative services and in-car applications that connect you to your vehicle and links you seamlessly, and securely.

Commands via the Remote App on your smartphone include remote climate control, lock/unlock, engine start, stolen vehicle locator, fuel monitoring, and maintenance alerts*.

INTRODUCING INCONTROL

The system features a number of benefits; through simple activation of InControl services, you can access many of these from your vehicle and smartphone via the Remote App – allowing you to interact with your Land Rover from anywhere.

Below details just some of the key features:

- **Optimised Roadside Assistance**
At the touch of a button you can easily connect to Land Rover Assistance in the event of requiring roadside assistance.
- **SOS Emergency Call**
In a critical situation, SOS Emergency Call will bring the emergency services to your exact location.
- **Beep & Flash (Remote App)***
Find your vehicle in a busy car park by selecting 'Beep and Flash' from the app. This will turn the hazard lights on and create an audible tone to direct you towards your vehicle.
- **Remote Climate (Remote App)***
Set your preferred interior temperature allowing for the warming up of the cabin on cold days and the ability to pre-cool on hot days all from the app.
- **Journeys (Remote App)***
You can opt into Journey tracking to easily look back on journeys complete with mileage, efficiency information and route taken.
- **Vehicle Status (Remote App)***
Check on your vehicle anytime, anywhere - check if it is locked, the window status, fuel levels, EV charge - if applicable, last parked location and can even obtain walking directions to your vehicle.

*Terms & Conditions apply. InControl specific features described may be optional or powertrain dependent. Please ask your local Land Rover retailer for availability and full terms. Certain features require an appropriate SIM with a suitable data contract, which will require a further subscription after the initial term advised by your retailer.

– **Guardian Mode (Remote App)***

Activate Guardian Mode so you can receive alerts of any interaction with your vehicle, even if it has been opened with your own key.

– **Vehicle Lock Reminders (Remote App)***

You can receive notifications including an unlocked warning that will be sent after 15 minutes if you have left your vehicle unlocked.

– **InControl Secure (Remote App)***

A seamless and secure stolen vehicle tracker which safeguards your vehicle more than ever before, giving you greater peace of mind.

Secure Tracker helps to locate your vehicle in the event of theft.

With so many more benefits available, ask a member of the team to check whether your vehicle has InControl® technology fitted and what features you can take advantage off today!

FIND OUT MORE

The Land Rover InControl App is free to download via both the Google Play and Apple App Stores. However, depending on the age of the vehicle some of the more advanced features, such as InControl Remote, do require a subscription.

incontrol.landrover.com

SETTING UP LAND ROVER INCONTROL

Designed to make driving safer and more enjoyable.

ACTIVATE YOUR INCONTROL ACCOUNT
