

LEXUS ProTect

For that showroom finish

 LEXUS

PRIDE IN APPEARANCE

Pristine showroom looks. Five year protection. Care without compromise. That's the assurance of Lexus ProTect.

Innovated from a revolutionary NASA coating, Lexus ProTect will preserve the immaculate finish of your car's paintwork, upholstery and alloy wheels. Just one application at your Lexus Retailer gives you five years peace of mind.

INNOVATIVE

Lexus ProTect is an entirely new technology. It works at a molecular level to bond with the existing surface and create an extremely tough, durable seal.

PROTECTIVE

Lexus ProTect's ceramic hardened finish guards against traffic film, pollution, the weather, acid rain, solvents and much more. Its hydro-repellent qualities help keep your car looking fresher for longer.

GUARANTEED

Just one application of Lexus ProTect gives you guaranteed paintwork protection for five years. No monthly conservers are required. If you change your car within those five years, the guarantee passes to the new owner.

VERSATILE

Lexus ProTect is ideal for protecting the showroom appearance of a new Lexus and also for revitalising an older car. Special treatments are available for paintwork, alloy wheels and upholstery.

EASY

Once your car has been treated with Lexus ProTect you can wash it as normal with a regular wax-free shampoo. The surface finish is highly durable and there's no need to wax or polish.

VALUABLE

Lexus ProTect is a sound investment. It helps maintain the best possible appearance and so contributes to enhancing your car's part-exchange or sale value.

ADVANCED

Lexus ProTect provides greater protection and longer durability than advanced polymer sealants and traditional wax coatings.

PROTECTION AGAINST:	WAX COATINGS	ADVANCED POLYMER SEALANTS	LEXUS PROTECT
Hot water	*	****	*****
Cold water/frost	**	***	*****
Acid rain	**	***	*****

Solvents	**	**	*****
Environmentally friendly	*	***	*****

EXTERIOR PROTECTION

Lexus ProTect seals the exterior of your car with a ceramic hardened finish that guards paintwork and side windows against the effects of pollution, weather, solvents and many other threats.

INTERIOR PROTECTION

The Lexus ProTect system includes a hypoallergenic fabric protector which can be safely applied to interior cloth upholstery, including carpet mats and trunk floor mat. Everyday spills, dirt and grime will wipe off without leaving a stain.

ALLOY WHEEL PROTECTION

Alloy wheels keep their appeal better with Lexus ProTect. Unsightly marks and grime caused by brake dust, road conditions and the weather are easy to clean away during normal washing.

FREQUENTLY ASKED QUESTIONS

Does Lexus ProTect need to be reapplied?

No. One application lasts for a full five years. That's a Lexus guarantee.

How should I clean my car?

Any good quality mild car shampoo or vehicle wash concentrate that DOES NOT contain wax is suitable. Simply follow the manufacturer's instructions.

Is it safe to use a jet wash?

Yes. The Lexus ProTect coating is not affected by high pressure washing.

Can a car wash be used?

Yes. A well maintained car wash on the lowest cycle will not damage the Lexus ProTect coating. However, DO NOT use a wax cycle.

Can Lexus ProTect be applied to used cars?

Yes. Lexus ProTect revitalises older paintwork. Technicians at your Lexus Retailer are trained to apply Lexus ProTect to both new and used cars.

Can Lexus ProTect be reapplied after an accident?

Yes. Lexus ProTect should be reinstated on all relevant panels as part of an insurance claim.

Please contact your local Lexus Retailer for full details about Lexus ProTect.
